

Installation instructions for IMMI

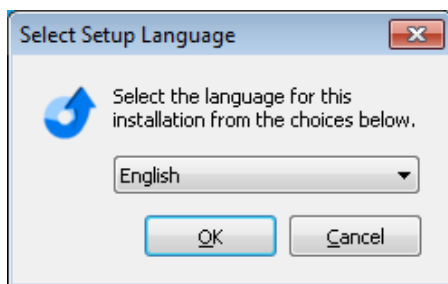

Installation requirements: Windows Installer 4.5 and Microsoft Visual C++. If Windows Installer 4.5 is not installed on your computer, the system prompts you to install this program before installing IMMI. Thereafter, the computer must be restarted. Then IMMI will be installed (**IMMI_xxx_setup.exe**).

The installation starts with an **IMMI-CD** or you can **download the file** (IMMI_xxx_setup.exe) from our website.

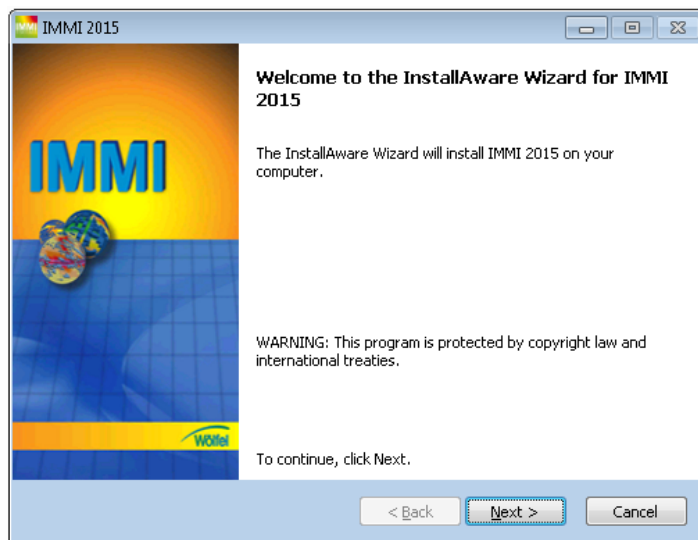

- **Proceed as follows:** Insert the USB key (single license) into the USB port of your computer.
- Insert the installation-CD (labeled with customer and version numbers) into the CD drive. The Autostart function is being activated or start the application file ...exe.
- The system displays the installation dialog box and guides you through the entire installation process.

Note: If the CD is not started automatically or the Autostart function is deactivated on your computer, call the **IMMI_xxx_setup.exe** file in Windows Explorer to open the browser.

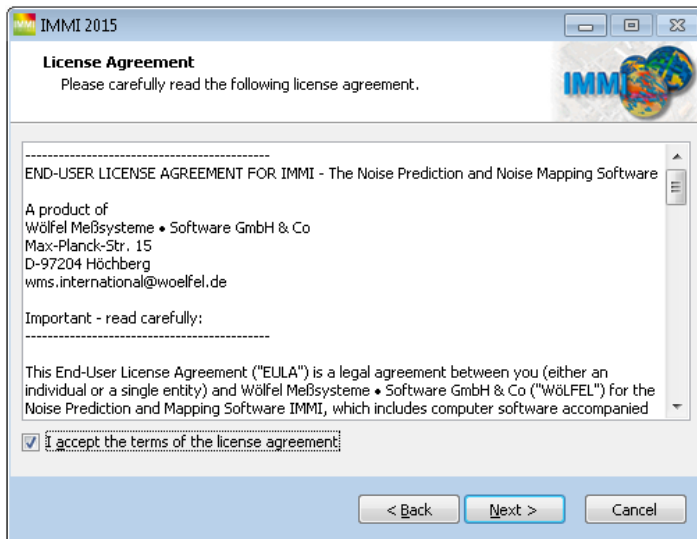

Operating system: Windows 7 and higher

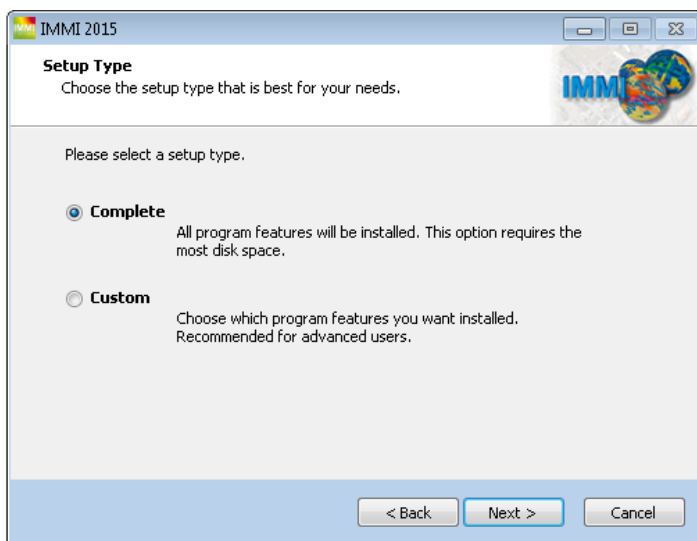

- Select the language desired for installation (German or English).
- Click **OK**.

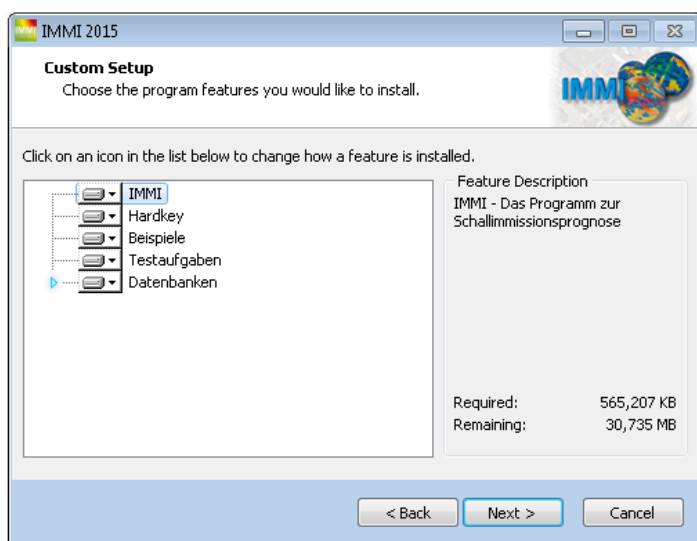

- Click **Next >**.

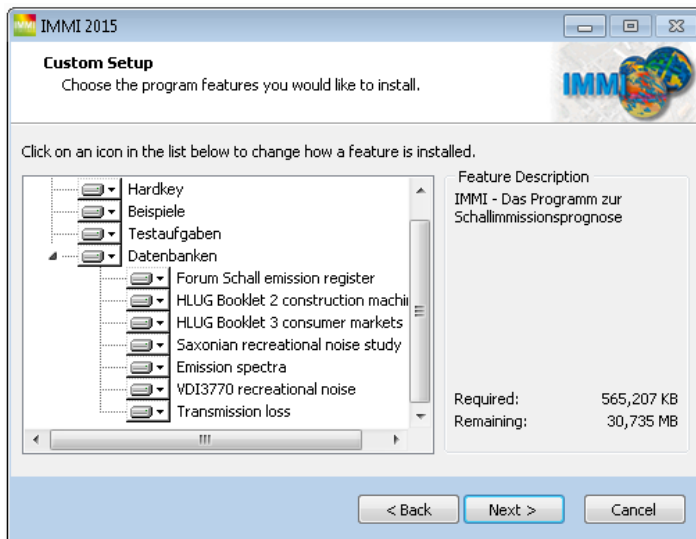

- Confirm the license conditions by activating the radio button **I accept the terms in the license agreement**.
- Click **Print** to print the license agreement.
- Click **Next** >.

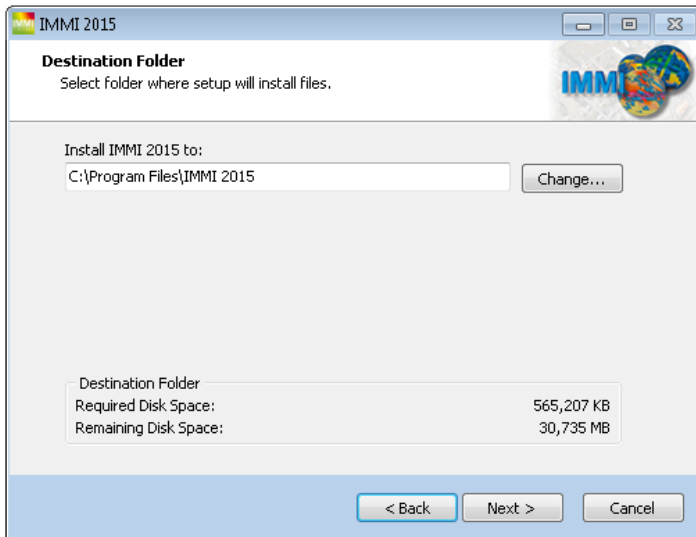

- Select between either the Complete Installation or the Custom installation.
- **Complete Installation:** The full package will be installed. Chose this option, if you are not familiar with all the components of the installation.
- **Custom installation:** When you choose this option, you can select, which components are installed and which are not installed. This option is only for experienced users.
- Click **Next** >.

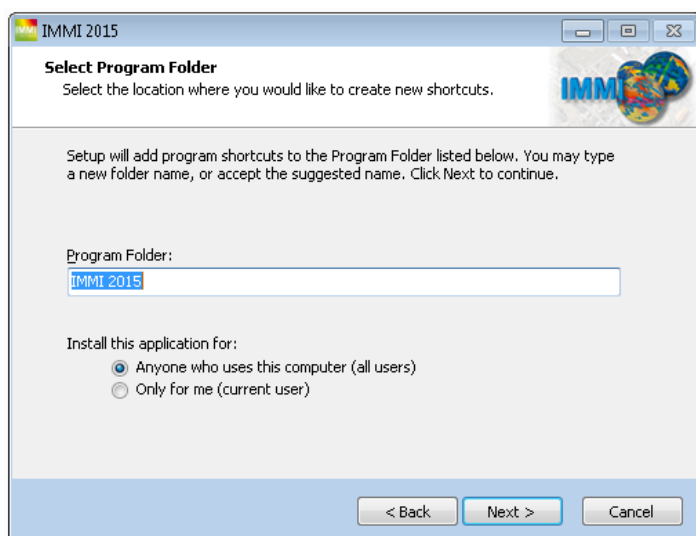

- Select the program features you want to have installed.
 - **IMMI:** Program installation
 - **Hardkey:** Driver for using the USB dongle
 - **Examples:** Example files for noise, air pollutants and aircraft noise
 - **Testcases:** Official test cases for the various rules
 - **Database:** External databases
- Click **Next** >.

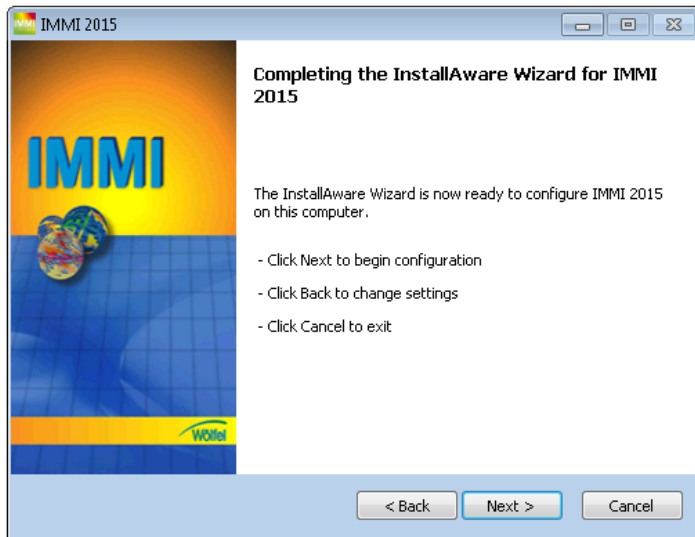

- Click button  to install or not install the function selected.
- Click the same button again to change the setting.
- **Note:** The **Database** function features several items which can be deselected separately.
- Click **Next >**.

- Select the folder to install the software.
- Click **Next >**.

- Select whether IMMI should be installed for **all users (Anyone ...)** or **Only for me**, or
- Click **Install** (this installs IMMI for all users).
- Click **Next >**.

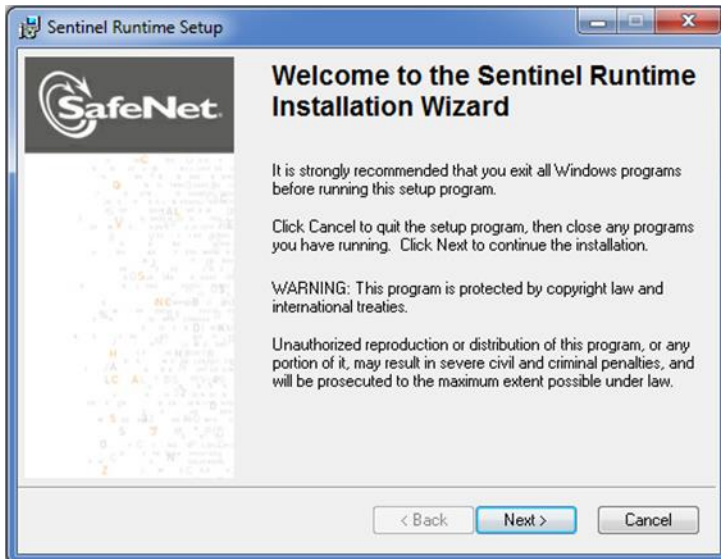

- Click **Next >**.

- Installation starts ...

- If this driver is already installed on your computer, the message shown to the left is displayed.
- Click **Yes** to install the most recent file.

- Click **Next >**.

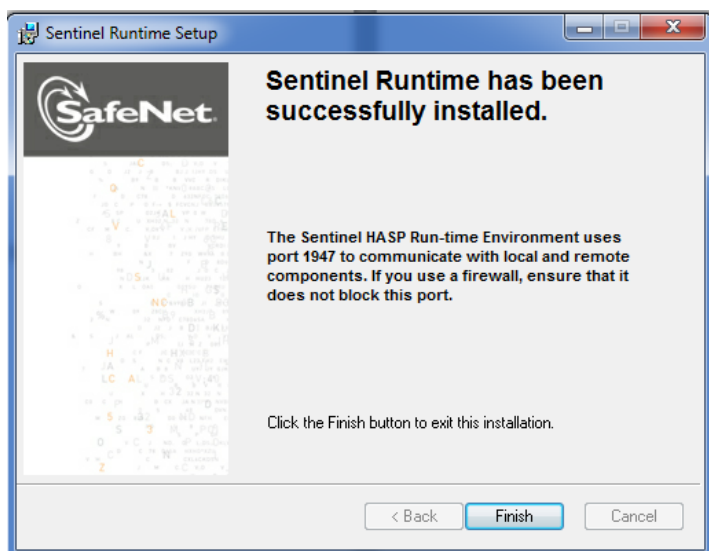

- Confirm the license conditions by activating **I accept the license agreement**.
- Click **Next >**.

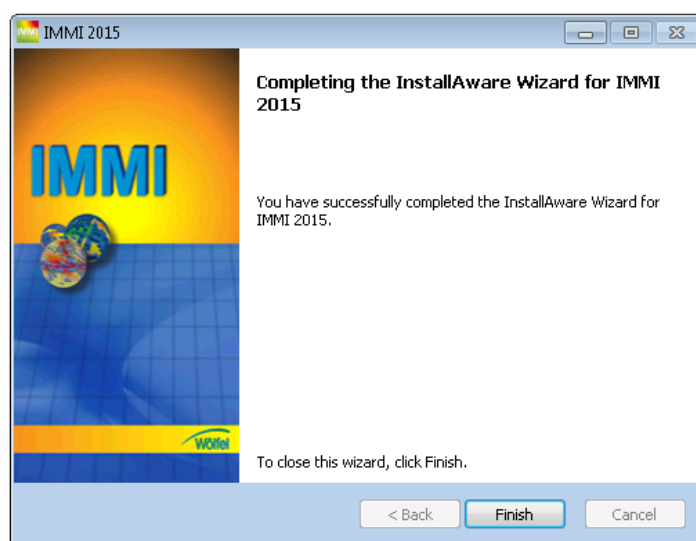

- Click **Next >**.

- Installation starts ...

- Click **Finish**.

- Click **Finish** to exit the installation process.
